

God brings encouragement by communicating with us in dreams and visions

*I will instruct you and teach you in the way you should go; I will counsel you with my eye upon you. Psalm 32:8*

## **God Has a Place for the Lighthouse**

I remember taking a short nap downstairs at the Mayflower building on a summer afternoon in 2020. At that time I had what I believe was a spiritual dream. In my dream a young man with a red goatee and wire-rimmed glasses came down the stairs there at Mayflower and said (among other things), "God has a place for the Lighthouse." I asked him his name and he said, "Red....Red, Obed." As with many spiritual dreams or encounters, it was a bit cryptic (see Numbers 12:6-8). I believe that the man represented Obed Edom in the Tanakh. He was the one that housed the ark of the covenant at his home before it was successfully brought up to Jerusalem by David. God blessed

Obed Edom and he stayed with the ark once it was moved from his home. I believe that God was encouraging me that He would lead us with His presence to the place we are to go.

I have found significant encouragement from this dream these last several months. It came over two years before we felt like God was moving us on from Mayflower. It was not directive related to our move but was confirmational as we made that decision. Tomorrow we have an opportunity to meet in a new place. Is it the ultimate place that God has for us? I don't know, but I do feel confident that He is leading us a step at a time in the way that we should go.

What about you? Has God given you a dream that has brought confirmation and encouragement to you? If so, I would encourage you to revisit this communication from God. If not, why not ask God to speak to you more consistently through your dreams.

*Father I thank You that You speak to us through dreams. I ask for an increase in these supernatural God dreams in the lives of us as Your people. Thank You for how You've spoken in the past and we ask for more right now and for the future.*
